FOREWORD

As one of Ohio's rural counties, Shelby County has distinctive characteristics and needs which set it apart from urban centers. Farms and businesses quite often are handed down generation after generation. Nevertheless, Shelby County is changing like other counties in Ohio. There are new faces, new businesses, and new homes rising out of once open fields.

Harvest Publishing Company has been serving Shelby County since 1848 through The Ohio Farmer magazine and has grown familiar with the needs of your community. In a way, this directory is a new venture by an old friend. Using our knowledge of Shelby County, we have constructed a directory to meet your needs in the way of maps, telephone numbers, and mailing addresses.

To help us improve this directory, we encourage everyone to write us with suggestions or corrections. Your comments regarding this directory will be considered in constructing directories for other Ohio counties.

Thank you and best wishes.

HOW TO USE THE DIRECTORY

If you know a person's name and need his address or telephone number or you want to know where his home is located on a road, the HARVEST COUNTY LINE is the place to look.

The HARVEST COUNTY LINE is divided into two sections; alphabetical listing of names and township maps.

ALPHABETICAL NAME LISTING

Information provided in this listing includes individual's name, map information, phone number, mailing address, township of residence, and post office.

An example of a typical listing is:

SMITH, JOHN N.	B3N	000-1111
(name)	(map information)	(telephone number
222 TR353, Home, Twp., RR1, Box 1, Homesville.		
(address, township, post office)		
For Zip Code — See Table of Contents		

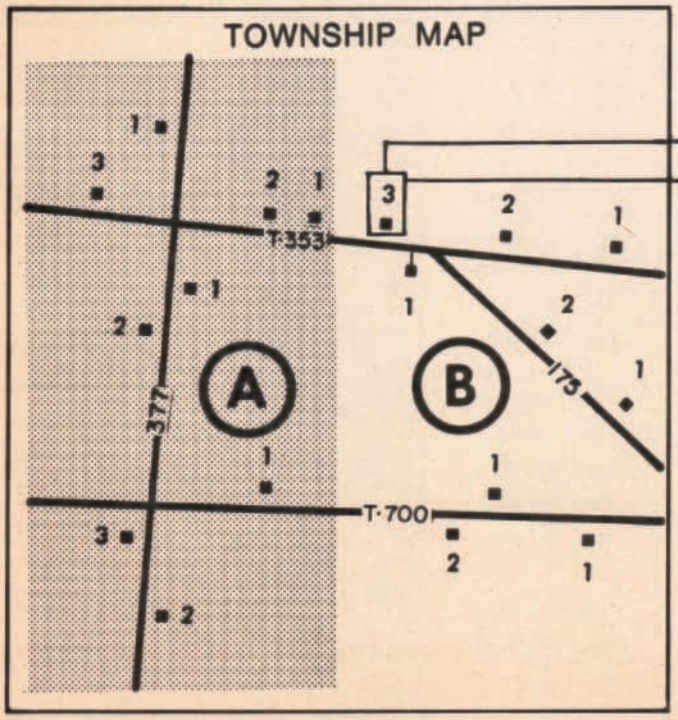

To find Mr. Smith's home on a map turn to the Township maps in the back of the directory, they are in alphabetical order. Locate Township Road 353 in map area B (the first symbol in the map information).

The second map symbol, 3, tells you that Mr. Smith lives in the third house from east to west within the map area.

The third symbol, N, tells you his house is on the north side of the road.

If the third symbol in the map information is E or W, the house is numbered from north to south. See map section below.

Occasionally, you will see two numbers with a slash between, i.e. 5/9. This indicates that houses or businesses numbered from the first number to the second number are located close together. The example 5/9, means that the fifth through the ninth houses or businesses are located in the same approximate area.

The biggest winner of the Lottery is you, the people of Ohio

Every week, thousands of Ohioans win cash prizes in the Ohio Lottery. In fact, nearly half of all Lottery proceeds from ticket sales goes out to prize winners.

But they're not the only ones who benefit from the Lottery. About 40¢ of every Lottery dollar goes back to the people of Ohio through the State's General Fund. This money is distributed for education, human services, mental health and many other needs.

So when you play the Lottery, every Ohioan comes up a winner.

mistakes do happen

Though we've tried in every way possible to make our listings in HARVEST COUNTY LINE complete and accurate, mistakes do happen. Maybe we located you on the north side of the road when you're on the south, or transposed two digits in your telephone number. Or, heaven forbid, we spelled your name wrong!

We want it right as much as you do. We will be happy to make the correction in our next issue, if you will drop us a line. Write to HARVEST PUBLISHING COMPANY, 9800 DETROIT AVE., CLEVELAND, OHIO 44102, ATTN: DIRECTORIES DEPT. You'll be doing us a big favor.

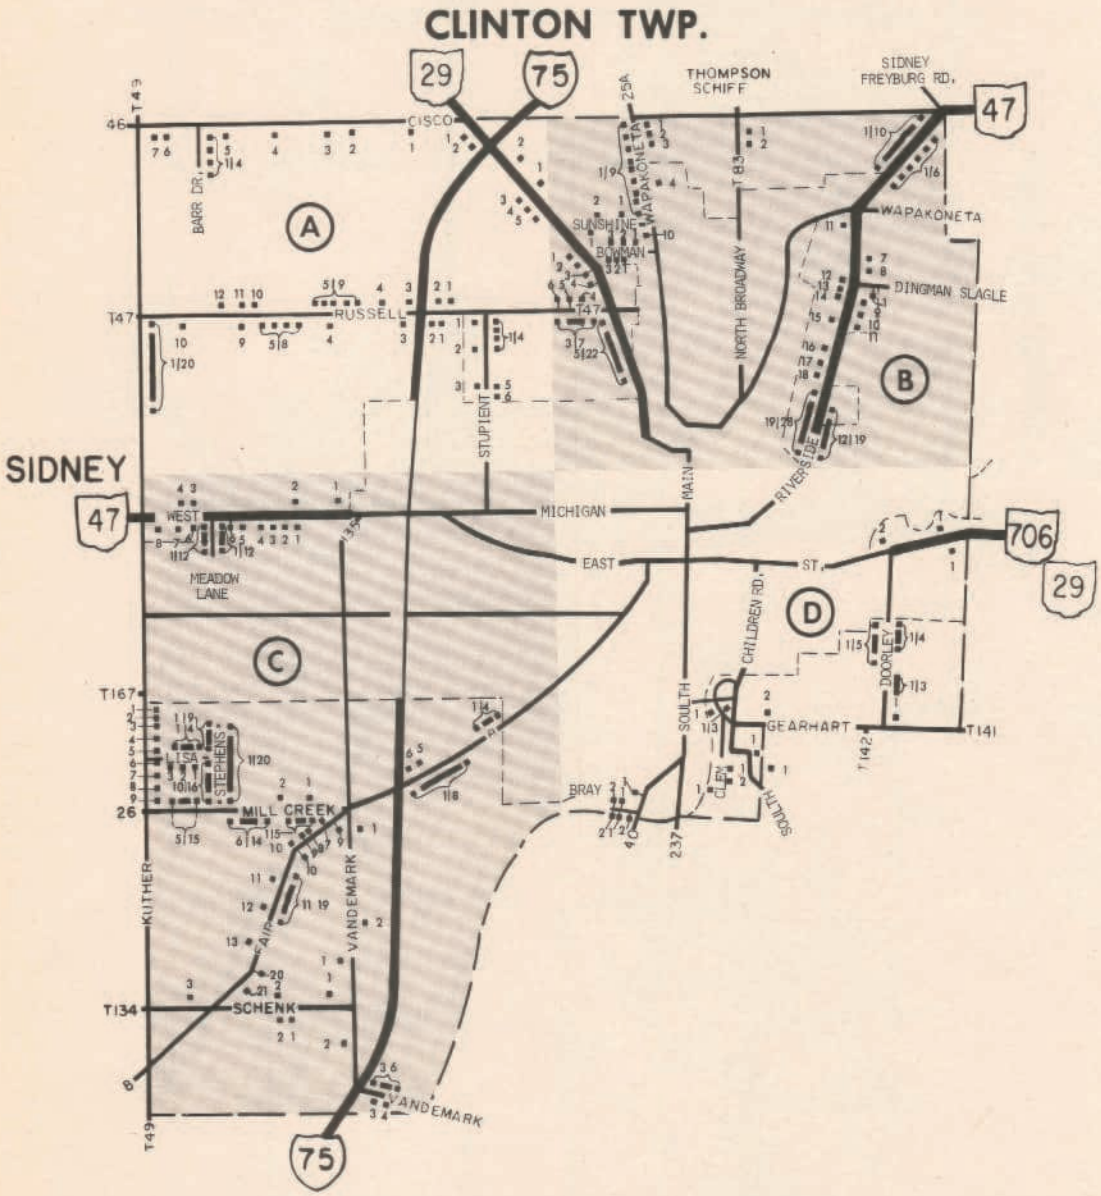

- **For convenience, keep HARVEST COUNTY LINE by your telephone**
